“ *His dependability was always present and he was always willing to lend an extra hand. There will always be the goat. :) I appreciate the time and service he gave to our great nation to protect all Americans. I am proud of him and I will surely miss him. Things will never be the same.*

“ *He was always our Santa Claus at Christmas time. His quiet, but wise words of wisdom will always be with me. He was a man of little words, but his actions and kindness spoke volumes.*
