“ *As a child, we would visit Paul and Willie to watch tv (wrestling on Sat night). They had a tv; we did not. We had no telephone to let them know we were coming, we just showed up, as people did back then. They always seemed proud to see us and they/we always had a good time. Paul quiet, cordial, even tempered: Willie Pearl laughing, always had a joke or two. I remember when they moved in their new house and where they sat their tv. People now would frown upon us just showing up and staying a few hours....but they wouldn't. (and they wouldn't, even today). Paul and my daddy seemed to have a special bond. I'm sorry they are gone. Paul was a tough, soft-spoken, and smart man. He will be missed in more ways than one*

“ Paul was definately a family man. He loved his children & grandchildren. Paul never put on a front, he was the same with everyone & everywhere. Paul loved his garden. He wanted his family to have fresh vegetables. Although all of his children were grown & had their own family, he made sure they had food to eat. He was a quit man but loved & respected others. The grandchildren were his babies, no matter their age & stressed the importance of an education. He will be missed greatly, but thank God; he was saved & we will see him again. Fair well Paul Woods until we all meet again in heaven. No more pain, no more doctors; just peace & fellowship with God & Willie Pearl & many others that was called home before your arrival
